Crouched over a tiny fire. chilled by the cool breeze of late afternoon with the grey smoke curling heavenward, the two unfailing signs of spring prepared their evening meal. They are with us every year. Along the railroad track, about a quarter of a mile east of town, they have constructed a home, one that needs little attention and awaits their return year after year. While the modern conveniences of the city home are not to be found, delectable meals are often concocted here and the tales told over the evening fire rival the "best sellers."
